**Global Connect Series: Fireside Chat with Mark Mobius – the Godfather of Emerging Markets**

We are delighted to have Mark Mobius to be joining our Global Connect Series session in June 2020 where we will be discussing about changing geopolitics and the post-COVID-19 global order, COVID-19 impacts towards Emerging Markets investment landscape, and his globe-trotting leadership journey. Mark is the founder of Mobius Capital Partners and famously known as 'the Godfather of Emerging Markets' by Reuters. His investment management firm focuses on investing and improving governance standards in emerging market companies with a clear ESG pathway. Previously, Mark was with Templeton Emerging Markets Group for more than 30 years, most recently as its executive chairman. During his tenure, the group expanded AuM from US\$100mn in only six markets to over US\$50bn in 70 countries.
